

Muhammad Talal Noor

BS Artificial Intelligence Student – COMSATS University Islamabad

Professional Summary

Motivated BS AI student with strong interest in Machine Learning, Data Science and AI application development. Over the past year, built end-to-end ML projects, learned Python, Java OOP, NumPy, Pandas, Matplotlib, scikit-learn, SQL basics, Git/GitHub, Flask web development, model deployment, and created portfolio projects.

Education

COMSATS University Islamabad
BS Artificial Intelligence (2025–2029 expected).

Technical Skills

Python, Java, OOP, NumPy, Pandas, Matplotlib, Scikit-learn, Flask, HTML, CSS, Git, GitHub, Jupyter Notebook, VS Code, Machine Learning, Data Preprocessing, Feature Engineering, Model Evaluation, Logistic Regression, Decision Trees, Random Forest, GridSearchCV, Basic SQL.

Projects

Loan Approval Prediction Web App: Cleaned dataset, engineered features, trained ML models, built Flask application, integrated prediction pipeline, prepared deployment and GitHub repository.

Telco Customer Churn Prediction: Built preprocessing pipeline using ColumnTransformer and OneHotEncoder, trained Logistic Regression and Random Forest models, tuned with GridSearchCV, created interactive Flask web application.

Learning & Coursework

Completed coursework in Programming Fundamentals, Object-Oriented Programming, Discrete Structures, ICT, Bioinformatics, Technical & Business Writing. Learned Exploratory Data Analysis through IBM/Coursera and completed multiple ML practice notebooks.

Soft Skills

Problem Solving, Analytical Thinking, Communication, Teamwork, Adaptability, Continuous Learning, Time Management, Attention to Detail, Critical Thinking, Presentation Skills, Persistence, Self-Motivation.

Achievements

Created multiple GitHub-hosted AI projects, converted notebooks into deployable web applications, learned deployment workflows, and built a professional portfolio website.
